EIS000058

Dear Ms. Dixon:

I would like to take this opportunity to introduce myself to you and let you know that I had a chance to view your web site on the above mentioned project.

I have been on contract by the Department of the Interior, California Desert District, Bureau of Land Management (BLM) to build and post their EISs on the Internet. I have built the first BLM EIS on the web in 1996. Since then, I have received numerous awards for preparing the highest quality, lowest cost, user-friendly NEPA compliance documents for the government. I understand the NEPA process and the communication challenges required to successfully complete it within reasonable time-frames. In addition, I have integrated GIS mapping and land use planning documents into the web-built EIS with the highest quality graphics at the lowest imaginable costs.

The Kern County Board of Supervisors has applauded the EIS/EIR process and document prepared by the BLM, of which I played a leading role in preparing.

I received 2 international awards, in 1997 and 1998, in the prestigious Government Infrastructure Awards (GII) for placing EIS documents on the Internet.

I would like to demonstrate to you, at no cost, the high quality and low cost service of posting your EIS and related documents on the Internet. The demonstration would include examples from existing EIS documents prepared for the Department of the Interior. The short demonstration would highlight:

- Low cost of setting and maintaining the site;
- Highest quality graphics, figures and tables;

(1)

EIS000058

- Fastest access and downloading of figures and maps;
- User-friendly navigation and search for information within the document;
- Linking of existing documents and data bases;
- Preparing and tracking mitigation monitoring plans and progress.

If you would like to find out more about the high quality services I have provided to the Department of the Interior, please contact Ahmed Mohsen, GIS, Land Use Planning and NEPA Compliance Program Leader at the Bureau of Land Management, at (760) 384-5421 or at amohsen@ca.blm.gov.

I have enclosed my card for your reference. I look forward to hearing from you.

Thank you

Larry Czerwonka
